

AMINE EL GHAZI

SOFTWARE DEVELOPER

Montréal, QC | amineelghazi100@hotmail.com | 438-410-1304 | [LinkedIn](#) | [GitHub](#)

PROFILE

Student / software developer with hands-on experience in backend development (**NestJS**) and 2D game development (**Unity, C#**). Comfortable working in teams, solving problems, and quickly learning new technologies. Strong interest in **cybersecurity** and applying best practices. Looking for a **full-time internship** for Winter 2027.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, C#, Java, Python, SQL

Frameworks: NestJS, Unity, Spring, Flask, React

Databases: PostgreSQL, MongoDB, SQLite

Tools: Git/GitHub, Docker, Postman, Linux/WSL, Nginx

Practices: REST API, Agile/Scrum, UML, MVC/Design Patterns

EXPERIENCE / PROJECTS

Full-Stack Developer / College Project – U-Owl

January 2026 – May 2026

Truck rental application with real-time visualization of stock availability on an interactive map.

- Frontend development (React, TypeScript, Vite): real-time stock location page
- Implemented the frontend-backend communication layer (**API routes**, authentication)
- Improved **user experience** (loaders, interactions)
- Occasional contributions to the **NestJS backend**
- Containerization and deployment with **Docker**
- [Frontend](#) / [Backend](#)

Product Owner & Developer / College Project - CineTrack

February 2026 – May 2026

Movie/TV show discovery and tracking platform (detail pages, favorites, comments) integrating an external API for metadata and visuals.

- **Product Owner** for a team of **6 developers**: project management on **Jira**, writing epics and use cases, and active participation in the Software Requirements Specifications (SRS) report
- Developed the **email account verification system** (sending service, validation, UI integration)
- Implemented the comment feature for shows/movies, including management (add/delete) and **admin-only controls**
- Designed the end-to-end favorites feature: **database persistence** (model, repository, migration) and WPF ViewModels for the Favorites page
